## HUMPHREYS PHARMACAL EXPANDS ITS LINE TO CONTINUE TRADITION OF LEADERSHIP IN COMBINATION HOMEOPATHIC REMEDIES

*For over 150 years, Humphreys Pharmacal has provided families with innovative, reliable remedies, based on the original principles of Dr. Frederick Humphreys,  
**THE pioneer in combination solutions***

**EAST HAMPTON, CT, March 23, 2006** – Humphreys Pharmacal, a long trusted provider of natural remedies, continues to give consumers effective, yet gentle combination formulas they can rely on to soothe a variety of discomforts. The company has plans for expansion this year offering new, targeted remedies that offer the whole family relief from cough, cold, stress, and pain. Humphreys knows Homeopathics like no other company; its patriarch, Frederick A. Humphreys, M.D., is the founding father of the modern combination approach, in which homeopathic ingredients are pre-combined in pellet form to address specific ailments. Today, Humphreys continues to lead the way in formulating effective Homeopathic solutions, based on the 150+ years of the company's experience, knowledge, heritage and tradition.

With a prestigious heritage as its foundation, Humphreys Pharmacal continues its innovative role in the combination remedy category, providing families with new medicines specific to symptoms that are a normal part of today's growing pains of life. For example, Humphreys offers a comprehensive line of baby and infant care formulas, such as their best-selling **Teething Pellets #3**, their **Simple Fever #1**, **Simple Diarrhea #4**, and **Bedwetting Pellets #30**. Plus, there's even a special formula devoted specifically to Moms everywhere, to help her get back on track, **Symptoms of Delayed Menses #11**.

### **The Legacy of Dr. Humphreys: Rebel with a Cause**

Dr. Frederick A. Humphreys became one of the leading homeopathic physicians in New York by 1853; he was both a physician and a scholar of homeopathy. As such, his efforts and leadership helped further the discipline and practice of homeopathy in the United States. Humphreys was Chairman of the American Institute of Homeopathy's Bureau for the Augmentation and Improvement of the Materia Medica (the science or study of the sources, nature, properties, and preparation of homeopathic drugs), and helped establish what eventually became The New York State Homeopathic Medical Society.

Perhaps Humphreys' greatest legacy is his concept of combining natural compounds with similar indications and "provings," which enabled him to be the very first to compose remedies with further-reaching effects than any of his homeopathic predecessors. In this way, Dr. Humphreys became THE originator of and pioneer in creating combination remedies, which he called *Homeopathic Specifics*. It was in 1854 that Dr. Humphreys founded the Humphreys Homeopathic Medicine Company, which later became Humphreys Pharmacal, to make and market Humphreys Homeopathic Specifics to the world.

### **Humphreys Pharmacal Today ... and Tomorrow**

The company's innovative approach to remedies, based on Humphreys' pioneering concept of combinations, has continued throughout the decades. Humphreys' staff has successfully blended its time-honored heritage and tradition with modern homeopathic science and research. In formulating their combination remedies, Humphreys has maintained contact with the pulse of today's consumers' wants and needs.

A benefit that sets Humphreys formulas apart is found in their pellets and tablets themselves: they're specifically formulated to release s-l-o-w-l-y so that their inherit health benefits can be fully absorbed, steadily, sublingually through the mucous membranes in the mouth. Other pellets that "dissolve instantly" may be rushing through a very important aspect of delivering their essential ingredients. Humphreys' slow-and-steady absorption serves to sustain all of the beneficial effects of each ingredient, as found in each unique combination formula.

Since 1854, the Humphreys Family has produced the highest quality natural products for personal care and skincare. Originally formulated by the respected homeopathic physician, Dr. Frederick Humphreys, M.D., all of their products are based on traditional, time-honored botanical ingredients to care for your family in the gentlest ways possible. We continue to produce our products in the same manner, harvesting many of our natural ingredients by hand and utilizing time-honored processing techniques – resulting in therapeutic products that work with your body, encouraging it to return to a natural state of health. Look for Humphreys new Very Berry and Very Cherry Teething Pellets #3 as well as other remedies for the relief from coughs, colds, stress, and pain – the latest in the Humphreys' legacy of wholesome, natural wellness products, safe and effective for the entire family.
